An aspiring web developer, I am passionately honing my skills in various programming languages, frameworks, and design principles. I am on a continuous learning journey, exploring innovative technologies to create engaging and user-friendly websites. Currently seeking opportunities, I am eager to apply my knowledge and contribute to dynamic projects, bringing creativity and a solutions-oriented mindset to the ever-evolving landscape of web development.

INTERNSHIP WORK EXPERIENCE
• Department of Education Pili Camarines Sur (IT Office)

- Designed and enhanced the system to be more user-friendly, ensuring it is responsive and provides a positive user experience.
- Created a login and registration page in the system
- Successfully performed debugging tasks, identifying and resolving issues within the system to enhance functionality and performance
- Provide technical support on troubleshooting software and hardware issues. Skilled in diagnosing and resolving problems related to internet connectivity

PROJECTS
- Barangay Profiling and Record Keeping System
  A Capstone Project built in PHP and using Laravel framework, and added some JavaScript to improve functionality. For the design aspect, employed HTML, CSS, and Bootstrap to enhance the user interface.
